

PROGRAMME

SUNDAY, 30th May

16.30 – 20.00 **Registration** (Lower Saxony Institute for Historical Coastal research, Viktoriastr. 26/28)

MONDAY, 31st May

8.00 – 9.00 **Registration**

9.00– 9.30 **Introductory Session**
Lower Saxony Minister of Science and Culture Lutz Stratmann
Welcome by **Dr. Felix Bittmann** followed by announcements

Gathering, Cultivation and Domestication

Chair: N.N.

- 9.30 – 9.45 Kreuz, A./Schäfer, E. Weeds finds as indicators for the cultivation regime of the Early-Neolithic Bandkeramik culture?
- 9.45 – 10.00 Kloöß, S./Kirleis, W./Feeser, I./ Dörfler, W. Neolithic farming and environmental changes during the Funnel Beaker Culture in Northern Middle Europe
- 10.00 – 10.15 Kirleis, W./Kroll, H. The orchard in the Neolithic: *Malus* in Central Europe
- 10.15 – 10.30 Kloöß, S. Wood use and management of the Final Mesolithic Fishermen-Hunter-Gatherer at the Southern Baltic Sea
- 10.30 – 11.00 **Coffee break**
- Chair: N.N.**
- 11.00 – 11.15 Viklund, K. The introduction of sustainable cereal cultivation in northernmost Europe – a survey and discussion of the archaeobotanical record from Sweden
- 11.15 – 11.30 Kihno, K./Jääts, L. Observations of landrace of winter rye in slash-and-burn experiments in Estonia
- 11.30 – 11.45 McClatchie, M./Whitehouse, N./ McLaughlin, R./Schulting, R./ Bogaard, A./Barratt, P. Cultivating societies: new evidence for arable agriculture from Neolithic Ireland
- 11.45 – 12.00 Hovsepian, R. Preliminary data on the Prehistoric agriculture of the Southern Caucasus (the main phases of development)
- 12.00 – 12.15 Hovsepian, R./Smith, A./ Bagoyan, T. Preliminary data on the archaeobotany of Areni-1 cave (Armenia)
- 12.15 – 12.30 Marinova, E./Popova, T. The free threshing wheat from the Bulgarian Prehistory
- 12.30 – 14.00 **Lunch**
- Chair: N.N.**
- 14.00 – 14.15 Melamed, Y. Food-plant remains from the Mousterian Nahal Mahanayeem Outlet, Israel
- 14.15 – 14.30 Morales, J./Barker, G./Hunt, C./Reynolds, T. Mesolithic plant gathering and early agriculture in North-east Libya: the plant remains from Haula Fteah and Hagfet al-Gama
- 14.30 – 14.45 Oliveira, H./Lister, D./Jones, M. Phylogeography of *Triticum turgidum* landraces in Iberia and North Africa: genetic structure and cultivation history
- 14.45 – 15.00 Vrydaghs, L./Chevalier, A./ Horrocks, M./van der Kaars, S./ Denham, T. Multi-proxy palaeoecological investigations (pollen, microcharcoal, starch, phytolith and macrobotanical) of human occupation and plant exploitation in the highlands of Papua New Guinea
- 15.00 – 15.30 **Coffee break**

Ethnobotanical approaches

Chair: N.N.

- 15.30 – 15.40 Festi, D./Oeggli, K. Archaeobotanical investigation on the Copper Age settlement of Latsch (eastern Italian Alps)
- 15.45 – 16.00 Schwarz, A.S./Schmidl, A./Goldenberg, G./Oeggli, K. Subsistence strategies of Bronze Age smelting sites in the Eastern Alps
- 16.00 – 16.15 Pető, Á./Herendi, O. Phytolith studies at a late avar period settlement near Hódmezővásárhely (South-East Hungary)
- 16.15 – 16.30 Pető, Á./Pópity, D. Complex microarchaeobotanical analysis of a food remain from a neolithic settlement (case study from Tiszasziget archaeological site, Hungary)
- 16.30 – 16.45 Kvavadze, E./Bitadze, L./Narimanishvili, G./Kakhiani, K./Jalabadze, M./Koridze, I./Rukhadze, L./Chichinadze, M./Martkoplshvili, I./Pataridze, N./Laliashvili, S. The Bronze Age first-aid kit, according to palynological data from archaeological sites in Georgia
- 16.45 – 17.00 **Break**
- 17.00 – 18.00 **Public lecture**
- 18.00 – 18.30 "Transfer"
- 18.30 – 21.00 **Welcome Reception** **Neues Küstenmuseum**

TUESDAY, 1st June

8.30 – 9.00 **Late Registration**

Methods and Analytical Archaeobotany

Chair: N.N.

- 9.00 – 9.15 Fraser, R./Styring, A./Bogaard, A./Ditchfield, P. Archaeobotanical remains for carbon and nitrogen stable isotope analysis: pre-treatment, pitfalls and potentials
- 9.15 – 9.30 Bogaard, A./Fraser, R./Charles, M./Heaton, T./Jones, G. Stable nitrogen isotope analysis of archaeobotanical remains: implications for the reconstruction of crop husbandry and palaeodietary practices
- 9.30 – 9.45 Fiorentino, G./Caracuta, V. Isotopical and biometrical analysis of charred caryopes from a Middle Bronze age silo at Ebla (NW Syria): tool for identifying ancient crop provenience?
- 9.45 – 10.00 Wallace, M./Charles, M./Jones G./Fraser, R./Heaton, T./Bogaard, A. A direct assessment of archaeological crop water status
- 10.00 – 10.15 Burger, P./Ruas, M.-P./Terral, J.-F. Assessing agrobiodiversity of the cherry tree (*Prunus avium* L./ *Prunus cerasus* L.) during Antiquity and Middle Ages: a morphometric approach
- 10.15 – 10.30 Wollstonecroft, M./Hroudova, Z./Hillman, G./Fuller, D. *Bolboschoenus glaucus*: a new species in the Flora of the ancient Near East
- 10.30 – 11.00 **Coffee break**

Chair: N.N.

- 11.00 – 11.15** Vandoorpe, P./ Schlumbaum, A. Considering the origin of roman bottle gourd (*Lagenaria siceraria*) north of the alps: a morphological and archaeogenetical approach
- 11.15 – 11.30** Brinkkemper, O./van der Maaten, L./Boon, P.J. Seeds of Forget-me-nots (*Myosotis*) no longer forgotten
- 11.30 – 11.45** Van der Veen, M. Identifying foodways - new methodological approaches
- 11.45 – 12.00** Berzsényi, B./Stika, H. P./ Jones, M.K. Agriculture, crop processing and social relations in Middle Bronze Age Hungary
- 12.00 – 12.15** Maier, U. Detecting intra-site patterns with systematic sampling strategies. Archaeobotanical grid sampling in lakeshore settlements
- 12.15 – 12.30** Schepers, M. The identification of past plant communities using modern relevées: a case study from Swifterbant
- 12.30 – 14.00 Lunch**
- 14.00 – 14.15** Jones, G./Charles, M./Jones, H./ Jones, M./Colledge, S./ Brown, T. Crop DNA evidence for the spread of agriculture in Europe
- 14.15 – 14.30** Karg, S./Henriksen, S.P./ Henriksen, M.B./Allaby, R. Cross-disciplinary studies on the evolution and cultural history of flax and linen in Southern Scandinavia
- 14.30 – 14.45** Kreuz, A./Schäfer, E./ Thiébault, S./Ruas, M.-P./ Dreslerová, D./ Pokorná, A./ Křivanková, D. The archaeobotanical database programme *ArboDat* a time economizing tool for data archiving and evaluation (German, French and English version)
- 14.45 – 17.30 Break and Laboratory/Poster session**

WEDNESDAY, 2nd June

Regional and Historical Archaeobotany

Chair: N.N.

- 9.00 – 9.15** Boenke, N. Do cannibals act different? Archaeobotanical results from the Neolithic site of Herxheim, Rhineland-Palatinate
- 9.15 – 9.30** Borojevic, K. Plant remains from a late Neolithic building at the Vinca site
- 9.30 – 9.45** Buxó, R./Antolín, F. Durum wheat in the Early Neolithic of the Iberian Peninsula: evaluating the evidences from La Draga (Banyoles, Girona Province, Spain)
- 9.45 – 10.00** Kubiak-Martens, L. Late Neolithic settlement in a tidal environment of Noord-Holland, the Netherlands
- 10.00 – 10.15** Peña-Chocarro, L., Morales-Mateos, J.B./ Pèrez-Jordà, G. First farmers in southern Iberia
- 10.15 – 10.30** Rösch, M./Sillmann, M. A bell beaker site with wet preservation form Hegau/South-west Germany: macrofossil and pollen evidence for land use
- 10.40 – 11.10 Coffee break**

Chair: N.N.

- 11.00 – 11.15** Rottoli, M. Middle Neolithic agriculture in northern Italy: archaeobotanical results from sites of Square-mouthed Pottery culture
- 11.15 – 11.30** Salavert, A. Plant economy of the first farmers in Middle-Belgium (Linearbandkeramik, 5200-5000 BC)
- 11.30 – 11.45** Fahmy, A. G. Food ingredients and cooking procedures in Predynastic Egypt: Archaeobotanical evidence from Hierakonpolis
- 11.45 – 12.00** Figueiral, I./Sejalon, P. Deep down the wells, in southern France: plant remains (Late Neolithic - Roman) from Mas de Vignoles IX and their implication for the study of settlement, environment and economy
- 12.00 – 12.15** Lityńska-Zajac, M./ Nalepka, D. Macroremains and pollen pattern of *Pinus sylvestris* – connected or disconnected? Based on findings in Poland since the Neolithic period
- 12.15 – 12.30** Akashi, C./Tanno, K. The agriculture in the marginal zone: Tell Ghanem al-Ali, Early Bronze Age Site on the Euphrates, Syria
- 12.30 – 14.00 Lunch**
- Chair: N.N.**
- 14.00 – 14.15** Perego, R./Badino, F./Baioni, M./Jacomet, S./Ravazzi, C. The record of *Staphylea pinnata* L. from Bronze Age sites in Italy: early imported artifacts or native stands?
- 14.15 – 14.30** Pollmann, B. Archaeobotany of the first discovered late Bronze Age/ Iron Age lakeside-dwelling in Lithuania
- 14.30 – 14.45** Schmidl, A./Schwarz, A.S./Oeggli, K. Cultivated Plants in the Eastern Alps during Bronze and Iron Age
- 14.45 – 15.00** Tereso, J./Ramil-Rego, P./Goméz-Orellana, L./Almeida-da-Silva, R. A palaeoethnobotanical approach to agricultural development in NW Iberia during prehistoric and early protohistoric times
- 15.00 – 15.15** Toulemonde, F. Plant remains in Northern France during Late Bronze Age and Early Iron Age: new data from Ile-de-France and Champagne-Ardenne regions
- 15.15 – 15.30** Hellmund, M. Plant remains of the Bronze Age, Iron Age and the Roman period from the Tell of Niederröblingen, Sachsen-Anhalt, Germany
- 15.30 – 16.00 Coffee break**
- 16.00 – 16.15** Alonso, N./Rovira, N. Consumption and treatment of plant products in Lattara (Lattes, France) between 475 and 350 BC
- 16.15 – 16.30** Bellini, C./Mariotti Lippi, M./Giachi, G./Gonnelli, T. Archaeobotanical investigations in the Iron Age site of Salut (Sultanate of Oman)
- 16.30 – 17.45** Bokeria, M./Ammann, B./ Masserey, C./Lomitashvili, D./ Kacharava, D./ Akhvlediani, D. New archaeobotanical data from the land of Golden Fleece-Ancient Colchis (Western Georgia, Caucasus)
- 17.45 – 17.00** Caneppele, A./Heiss, A.G./Kohler-Schneider, M. Mistletoe from Sacred Groves...? – A Late Iron Age temple district in Lower Austria from an archaeobotanical perspective
- 17.00 – 17.15** Grabowski, R. Changes in cereal cultivation in south Scandinavia during the iron age: a survey and interpretation of the archaeobotanical record
- 17.15 – 17.30** Lentjes, D.M. Seeds in context: the archaeobotanical macroremains from Muro Tenente, southwest Italy
- 17.30 – 18.30 Committee meeting**

THURSDAY, 3rd June

Origins of agriculture in the Near East

Chair: N.N.

- 9.00 – 9.15 Abbo, S./Lev-Yadun, S./
Gopher, A. The agronomic and ecological basis of Near Eastern
plant domestication in light of archaeological evidence
- 9.15 – 9.30 Deckers, K./Riehl, S. Environmental settings at Natufian and PPNA sites in the
Damascus region (Syria) based on plant remains from
the archaeological sites Baaz and Kaus Kozah
- 9.30 – 9.45 Fairbairn, A./Baird, D. Crops first, livestock second: Evidence for a gradual
Neolithic in Central Anatolia
- 9.45 – 10.00 Fuller, D.Q. Cultivation as slow evolutionary entanglement:
comparative data on the rate and sequence of
domestication
- 10.00 – 10.15 Hartmann-Shenkman, A./
Auman-Hazan, C./Faust, A./
Weiss, E. Prehistoric archaeology in an Iron Age site – The "pantry"
of Tel 'Eton, Israel
- 10.15 – 10.30 Kislev, M.E./Simchoni, O./
Hartmann-Shenkman, A. Was the Neolithic revolution in the Near East really an
agricultural revolution?

10.40 – 11.10 Coffee break

Chair: N.N.

- 11.00 – 11.15 Riehl, S./Zeidi, M./
Conard, N.J. Contribution to the beginnings of plant production in the
Eastern Fertile Crescent – Archaeobotany at the PPN-
sites of Chogah Golan and Chia Sabz (Iran)
- 11.15 – 11.30 Tanno, K./Willcox, G. Identifying domestication using charred spikelet bases
from early agriculture sites in the Near East
- 11.30 – 11.45 Weiss, E./Zohary, D. The spread of southwest Asian founder crops to Europe
and beyond
- 11.45 – 12.00 White, C. Early cultivation practices at the pre-pottery Neolithic Site
of el-Hemmeh, Jordan
- 12.00 – 12.15 Willcox, G. Arable weeds and the beginnings of cultivation in the
Near East

12.15 – 12.30

12.15 – 14.00 Lunch

Regional and Historical Archaeobotany, continued

Chair: N.N.

- 14.00 – 14.15 Zanon, M./Deaddis, M./
de Marinis, R./Perego, R./
Quirino, T./Ravazzi, C. The Etruscan establishments near Mantua in N-Italy:
plant goods trade and early history of Padanian forests
exploiting since the Iron Age
- 14.15 – 14.30 Bouchaud, C./Tengberg, M./
Moulhérat, C./Dal Pra, P. The cultivation of cotton (*Gossypium*) in Arabia during
Achaemenid and Nabatean times
- 14.30 – 14.45 Kajale, M.D./Cherian, P.J. Implications of Spice-Plant Remains from Early Historic
coastal site at Pattanam, district Trissur, Kerala, India
- 14.45 – 15.00 Prøsch-Danielsen, L./
Soltvedt, E.C. The shift from saddle querns to rotary hand querns in
south-western Norway with corresponding crop plant
assemblages
- 15.00 – 15.15 Akeret, Ö. Plant remains from two neonate burials in the Roman
legionary camp of Vindonissa, Switzerland (provisional)
- 15.15 – 15.30 Chevalier, A./
Derreumaux, M. *Daucus carota* L. and *Pastinaca sativa* L. subsp. *sativa*:
condiments for local allec in Northern Europe or early
pot-au-feu ingredients? A cross study from Arlon Roman
site (Belgium), using seeds, starches and phytoliths

15.30 – 18.30 Coffee break and Laboratory/Poster session

17.30 – 18.30 Committee meeting

19.00 **Conference Dinner** Pumpwerk

FRIDAY, June 4

Session

Chair: N.N.

9.00 – 9.15 Lohmann, W.

Archaeobotanical investigations at the Roman Iron Age and Early Medieval site Elsfleth-Hogenkamp (Lower Saxony, Germany)

9.15 – 9.30 Sadori L./ Giardini M./
Pepe C.

Plant macro-and microremains at *Portus*, the harbour of imperial Rome

9.30 – 9.45 Schaal, C.

A waste management of plants, human and animal faeces in urban areas - The roman agglomeration case Horbourg Wihr (Alsace, France)

9.45 – 10.00 Smith, W./Biddulph, E./
Smith, D.

Super-abundant spelt processing waste at Roman Northfleet Villa, Kent (UK): The implications for the introduction of malt, granary pests and market economy into Britain

10.00 – 10.15 Pińska, K.

Plant remains from the early medieval Pagan offering site in Żółte (N-W-Poland)

10.15 – 10.30 Pokorná, A./Starec, P.

The Oldest Medieval Pond ? Archaeobotanical investigations in the historical Prague, Czech Republic

10.40 – 11.10 Coffee break

Chair: N.N.

11.00 – 11.15 Ruas, M.-P./Tengberg, M.

Archaeobotanical research at the medieval fortified site of Igiliz-des-Hargha (Anti-Atlas, SW Morocco) with special attention to the exploitation of the argan tree

11.15 – 11.30 Stika, H.-P./Jahns, S./
Kennecke, H./Knipping, M./
Boust, H./Christiansen, J.

Botanical macro-remains from Slavic settlements from the River Elbe Floodplains in comparison to On-site and Off-site Pollen Data

11.30 – 11.45 Vrydaghs, L./Doutrelepont,
H./Court-Picon, M./
Laurent, C./Devos, Y.

The early medieval Brussel's landscape: the archaeobotanical contribution to the study of dark earth

11.45 – 12.00 Wiethold, J./Bonnaire, E.

Medieval agriculture in eastern France: The comparison of the rural medieval sites of Marnay/Pont-sur-Seine (Aube, Champagne-Ardenne) and Vitry-sur-Orne (Moselle, Lorraine)

12.00 – 12.15 Zach, B.

Archaeobotanical clues for the development in the High and Late Middle Ages of the Palatine and Early Town of Ulm, Baden-Württemberg, Germany

12.15 – 12.30 Sillasoo, Ü.

Unique plants in patterned landscapes

12.30 – 14.00 Lunch

Concluding Session

Chair: N.N.

14.00 – 15.00

Summing up

Announcements: publication, the 15th symposium 2013?

SATURDAY, June 5

Excursions

9.00 Depart from Wilhelmshaven

19.30 / 20.00 Arrival to Wilhelmshaven

Field excursion 1 Wadden Sea, Spiekeroog island

Field excursion 2 Elbe-Weser Triangle

Field excursion 3 Jade Bay, Sehestedt, Neuenburg

SUNDAY, June 6

Departure

**POSTER SESSION 1 (Tuesday, June 1):
Regional and Historical Archaeobotany**

- Bárta, M./Beneš, J./Novák, J./ Pokorná, A. Archaeobotanical research of the lake of Abusir at the edge of the Old Kingdom Pyramid field of Abusir, Egypt
- Benes, J./Košňovská, J./ Frolík, J./Matiášek, J. Archaeobotanical analysis of the early modern vault infill from Vladislav Hall, Old Royal Palace, Prague Castle, Czech Republic
- Berihuete, M./Buxò, R. The archaeobotanical record of the Iberian site of Puig de Sant Andreu (Ullastret, Catalonia): preliminary results
- Bernardová, A./Kalábek, M. Macro-remains analysis of the high medieval sediments of former minorite monastery in Olomouc, Czech Republic
- Bernardová, A./Novak, J./ Houfková, P./Meduna, P. The reconstruction of the Early Medieval vegetation in Mělník vineyard region, Czech Republic
- Boenke, N. Do cannibals act different? Archaeobotanical results from the Neolithic site of Herxheim, Rhineland-Palatinate
- Bokeria, M./Mamuladze, S./ Kakhidze, A. The archaeobotanical remains of Roman age from the eastern Black Sea littoral (Gonio-Apsaros, South-Western Georgia)
- Bosi, G./Rinaldi, R./Labate, D./ Santini, C./Bandini Mazzanti, M. Archaeobotany and the history of local Flora: the case of archaeological records (12th cent. A.D.) from the Bishop's Palace of Modena (Emilia Romagna - Italy)
- Bouby, L./Bouchette, A./ Figueria, I. An exotic plant in the Western Mediterranean: sebesten (*Cordia* sp.) fruits in Roman Narbonne (Southern France)
- Brombacher, C. Stans Kehrsiten: Macroremains from a Neolithic lake shore site in Central Switzerland
- Carra, M. Investigations about *Gereonium* (Molise, Italy): carpological remains from the castle's kitchen (14th century A.D.)
- Castiglioni, E./Rottoli, M. Plant offerings from Roman cremations in northern Italy: a review
- Cerina, A./Apsite, L./Berzins, V./ Kalnina, L./Ozola, I. Vegetation change and human impact, as reflected in Littorina Sea lagoonal deposits near the Priedaine archaeological site at the head of the Gulf of Riga (Plant macroremains, pollen and wooden artefacts)
- Cooremans, B. Archaeobotanical investigations at the Roman town of Tongeren (Belgium)
- Dreslerová, D./Kočar, P. Archaeobotanical finds of cultivated plants in the prehistory of the Czech Republic
- Filipovic, D./Bogaard, A./ Charles, M./ Ergun, M./Jones, G./Livarda, A./Asouti, E. Recent archaeobotanical results from Çatalhöyük, central Anatolia
- Gianassi, E./Bosi, G./ Massamba N'siala, I./Mercuri, A.M. Fewet (Libya, Central Sahara) and the archaeobotanical research of Garamantian Times
- Grasso, A.M./Fiorentino, G. Waterlogged grape remains (*Vitis vinifera* ssp. *vinifera* L.) from a Byzantine well of Supersano (South-East Italy): a discard of wine production?
- Heiss, A.G./Kohler-Schneider, M. Farming and foraging on limestone and loess - Archaeobotanical records from the Late Iron Age settlement of Michelstetten (Lower Austria)
- Herbig, C. Fruits and ears - Another well from the Linear Pottery Culture: Schkeuditz-Altscherbitz (Saxony, Germany)
- Hiie, S. Charred Grain Finds from Estonian Hillforts
- Højem Andreasen, M./ Mose Jensen, P./Hambro Mikkelsen, P. Macrofossils in „Grubenhäuser“ from Viking Age in Denmark
- Kenéz, A./Gyulai, F. Hundred years archaeobotanical investigation on a Roman fortress in Pannonia (or also in Sektion Gathering, Cultivation and Domestication)
- Kodýdková, K./Frolík, J./Musil, J./ Beneš, J. Archaeobotanical macro-remain analysis of medieval cesspit 938 from Chrudim, Czech Republic
- Kropp, R./Zerl, T./Schamuhn, S./ Insight into the environment of a Late-/Post-Medieval oxbow lake

- Wygasch, C./Röpke, A. (Rhineland, Germany), using a multi-proxy approach
- Kvavadze, E./Chichinadze, M./ Bokeria, M./Rusishvili, N./ Kacharava, D./Akhvlediani, D. Environment and agriculture of ancient Vani (western Georgia) according to archaeobotanical and palynological data
- Lempiäinen, M./Lindroos, T./ Lempiäinen, T./Niukkanen, M./ Hakanpää, P. Macrofossil finds of Porvoo/Borga - a medieval town in Southern Finland
- Lempiäinen, T. The oldest documents and macrofossil finds of some medicinal plants in Finland
- Lucas, L. Exploring archaeobotanical contributions in Cypriot Prehistory
- Mercuri, A.M./Bosi, G./ Florenzano, A./ Rinaldi, R./Torri, P./Pederzoli, A./ Bandini Mazzanti, M. The city of Parma (Emilia Romagna - Italy) in the roman and medieval periods: seeds and fruits, pollen and parasite remains
- Mueller-Bieniek, A./Walanus, A./ Wasylikowa, K./Woch, M. Plants in Medieval Kraków - statistical analysis
- Nasu, H./Tanno, K./Hongo, H./ Fujii, S. Archaeobotanical study of PPNB outpost, Wadi Abu Tulayha, southern Jordan with special reference to the beginning of nomadism in the southern edge of the Fertile Crescent
- Novák, J./Lisá, L./Kuna, M. Anthracological and geoarchaeological analysis of early medieval houses in Roztoky u Prahy (Czech Republic)
- Novák, J./Svitavská, H./Sádlo, J. New adventures in the "Land of Fire" and their relevancy on the archaeobotanical and environmental reconstructions (Doksy region, Czech Republic)
- Olmi, L./Mercuri, A.M./ di Lernia, S. Pollen, macroremains and fruits' aDNA from the Takarkori Rockshelter: an integrated archaeobotanical research in Central Sahara
- Ozola, I./Cerina, A./Kalnina, L./ Apsite, L./Berzins, V. Palaeobotanical studies at the Lake Burtnieks area, North-Eastern Latvia
- Pomazi, P./Schäfer, E./Kreuz, A. Archaeobotanical results from the Neolithic and Bronze Age site Fajasz (S-Hungary)
- Reed, K. Prehistoric Croatia: New archaeobotanical findings
- Rinaldi, R./Bosi, G./Rovina, D./ Biccione, L./Bandini Mazzanti, M. First archaeobotanical analysis from a Medieval well (14th cent. A.D.) in Sassari (Sardinia - Italy)
- Šálková, T./Chvojka, O. Macro-remains analysis of the Late Bronze Age ditches in Březnice by Bechyně, Czech Republic (preliminary results)
- Šoštarić, R./Krajačić, M./ Gluščević, S./Mareković, S./ Jelaska, S. Plant remains from the Roman harbour at Zaton near Zadar (Croatia)
- Ucchesu, M./Peña-Chocarro, L. Agriculture in the Bronze Age in Sardinia: the case of Grotta Monte Meana (Santadi)
- Uzquaiano, P./D'Oronzo, C./ Fiorentino, G./Ruiz Zapata, B./Gil Garcia, M.J./Martens, G./Ruiz Zapatero, G./Baquedano, E. Cereals for the Carpetanians: archaeobotanical research in El Llano de La Horca (Santorcaz, Madrid, Spain), a late Iron Age oppidum
- Valamoti, S. M./Gatzogia, E. Plant remains from an Iron Age pit at Karabournaki, northern Greece
- Vaněček, Z./Beneš, J./Frolík, J./ Mácalova, M. Archaeobotanical investigation at Bylany Culture settlement (Early Iron Age, 7th-6th century BC) Prague - Černý most, Central Bohemia
- Woch, M./Mueller-Bieniek, A. Anthropophytes of Medieval Kraków
- Wojas, L./Badura, M./Misiuk, Z. Plant materials from early medieval (12th/13th c.) economic objects on the site of Tartaczna in Gdańsk (N Poland) – preliminary results
- Žácková, P./Pokorný, P./Šída, P./ Chvojka, O. Plant macrofossils from the deposits of the Lake Schwarzenberg (Southern Bohemia, Czech Republic) and from associated Mesolithic archaeological sites

Poster Session 2 (Thursday, June 4):

Regional and Historical Archaeobotany, Methods and Analytical Archaeobotany, Gathering, Cultivation and Domestication, Ethnobotanical approaches, Open

- Antolín Tutusaus, F. Experimental archaeology as a resource for approaching formation processes of seed assemblages. First results
- Arranz, A./Ibáñez, J.J./Zapata, L. Early Agriculture and Woodland Use in the Near East (the case of Qarassa, PPNB, Jordan Valley, Syria)
- Bešta, T./Novák, J./Dreslerová, D. The influence of the human activity on the changes of ecological conditions in Komořanské Jezero Lake (Czech Republic)
- Brun, C./Zech-Matterne, V./Derreumaux, M. Evolution of ARABLE-weed flora during protohistoric and early historic period in northern Gaul: a statistical approach taking account of archaeobotanical results and pollen studies surveys in present-day non-mechanised agricultures
- Capparelli, A./Valamoti, S.M./Wollstonecroft/M. Plant processing around the globe: archaeobotanical, experimental and ethnobotanical approaches
- Charles, M./Filipović, D./Bogaard, A. Identification criteria for barley rachis: distinguishing two- from six-row and naked from hulled barley
- Coubray S./Fiorentino G./Zech-Matterne, V./Bui-Thi Mai/ Pagnoux C. New prospects about the history of Citrus fruit in western Mediterranean area: a multiproxy investigation in the Campania region (Italy)
- D'Oronzo, C./Aruta, G./Fiorentino, G. Bread for the Gods: macro and microscopical analysis of bread fragments in religious context of South-eastern Italy
- D'Oronzo, C./Stellati, A./Fiorentino, G. Archaeobotanical analysis of the Middle Bronze Age village of Filo Braccio at Filicudi (Aeolian Islands-Italy): spatial analysis and the identification of different activity areas
- D'Alpoim Guedes, J./Warinner, C. Establishing open-access online reference collections for archaeobotanical research
- Fiorentino, G./Ulas, B. A recent attestation of New glume wheat type: a biometrical and morphological study of forks from the neolithic levels in Mersin-Yumuktepe(Turkey)
